Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full stack developer with 3+ years of experience building and shipping responsive web applications and client products. Experienced across frontend development, backend APIs, authentication, relational databases, third-party integrations, deployment, and production troubleshooting.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, responsive design, UI/UX

Backend: Node.js, Next.js server features and APIs, Express.js, Python, Django, REST APIs, JWT authentication

Data: PostgreSQL, MariaDB, MySQL, SQLite, MongoDB, Drizzle ORM, schema design, SQL

Tools & Delivery: Git, GitHub, Docker, Cloudflare, Playwright, third-party API integrations, deployment, manual QA

PROFESSIONAL EXPERIENCE

Cynthius Studios | Contract Full Stack Developer Nov 2025 - Jun 2026

Remote | UK

- Delivered full-stack features for MHS Media using Next.js, including authenticated workflows, APIs, database operations, and meeting-management functionality.
- Integrated Monday.com, Google Calendar, Fathom, OpenClaw, and other third-party services.
- Implemented admin features and designed database tables independently for Shridhar Lifeschool.
- Diagnosed production issues, fixed defects, and collaborated through Git, pull requests, and code reviews.
- Worked with Next.js, MariaDB, Docker, Cloudflare, manual QA, and targeted Playwright browser testing.

Independent Client Work | Full Stack Developer 2026

Remote

- **SGT Productions:** Designed, built, and deployed a full-stack film-production website using Next.js 15, React 19, TypeScript, Tailwind CSS, Drizzle ORM, SQLite, JWT authentication, Zod validation, image uploads, and Framer Motion. sgtproductions.com
- **NepFace Production:** Designed, built, and deployed a responsive creative-studio website with Next.js, TypeScript, Tailwind CSS, Framer Motion, Lenis, validated contact forms, portfolio filtering, video interactions, and technical SEO. nepfaceproduction.com
- **Private multi-branch billing dashboard:** Independently developed and deployed a production Next.js and PostgreSQL system for two branches, supporting authentication, role-based access, pending and historical bills, advance payments, and profit calculations on Cloudflare.

EARLIER EXPERIENCE

Independent Clients | Freelance Full Stack Developer May 2024 - Dec 2024

Remote | Australia

- Designed, built, and deployed two responsive client websites from initial requirements through production.
- Delivered Trinity Removals with HTML, CSS, and Django, and Perfect Incense with React and Node.js.

Growmore Digital Marketing | Full Stack Developer Mar 2023 - Jul 2024

Kathmandu, Nepal

- Built client websites using React, JavaScript, Node.js, Python/Django, HTML, and CSS.
- Collaborated with UI/UX designers to translate requirements into responsive, user-friendly interfaces.

Mailsway Inc | Frontend Developer Feb 2021 - 2022

Remote

- Developed and maintained frontend functionality for a US-based B2B direct-mail and fulfillment website using React and Node.js.
- Contributed to responsive UI implementation and usability improvements.

EDUCATION

Everest Engineering College | Bachelor of Engineering in Computer Engineering 2022 - 2026
